**Departmental
Findings of Fact and Order
Part 70 Air Emission License
Amendment #1**

After review of the Part 70 License application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A, Section 344 and Section 590, the Department finds the following facts:

I. Registration

A. Introduction

FACILITY	The Dingley Press (Dingley)
PART 70 RENEWAL LICENSE NUMBER	A-506-70-H-R/A
LICENSE TYPE	Part 70 Section 502(b)(10) Change
NAICS CODES	323110
NATURE OF BUSINESS	Commercial Lithographic Printing
FACILITY LOCATION	Lisbon, Maine
RENEWAL LICENSE ISSUANCE DATE	October 3, 2006
AMENDMENT ISSUANCE DATE	June 19, 2007
LICENSE EXPIRATION DATE	October 3, 2011

B. Amendment Description

The Dingley Press (Dingley) currently operates ink jet printers that use both a methanol based ink and ink containing methyl ethyl ketone (MEK). These printers are used to print the names and addresses on the cover of publications. All but two of the methanol based printers are equipped with solvent recovery.

Dingley plans to discontinue use of methanol based inks and replace them with acetone based inks. However, they would like to retain the flexibility to use methanol based ink in the future.

Acetone is not a VOC or a HAP. Therefore, the use of acetone based inks will not require the use of solvent recovery units. Dingley will keep records of the type of ink used in each inkjet printer and will operate the recovery units whenever methanol based inks are used.

C. Application Classification

The application for Dingley is not a modification under Section 5 of MEDEP Chapter 140. The changes will not cause emissions in excess of any licensed standard. Therefore this amendment is determined to be a Part 70 Section 502(b)(10) Change and has been processed as such.

ORDER

Based on the above Findings and subject to conditions listed below, the Department concludes that emissions from this sources:

- will receive Best Practical Treatment;
- will not violate applicable emissions standards
- will not violate applicable ambient air quality standards in conjunction with emissions from other sources.

The Department hereby grants the Part 70 Section 502(b)(10) Change A-506-70-I-A pursuant to MEDEP Chapter 140 and the preconstruction permitting requirements of MEDEP Chapter 115 and subject to the standard and special conditions below.

Federally enforceable conditions in this Part 70 license must be changed pursuant to the applicable requirements in Chapter 115 for making such changes and pursuant to the applicable requirements in Chapter 140.

For each standard and special condition which is state enforceable only, state-only enforceability is designated with the following statement: **Enforceable by State-only**.

Severability. The invalidity or unenforceability of any provision, or part thereof, of this License shall not affect the remainder of the provision or any other provisions. This License shall be construed and enforced in all respects as if such invalid or unenforceable provision or part thereof had been omitted.

The following shall replace Condition (18) of air emission license A-506-70-H-R/A:

(18) Bindery/Inkjet Operations

Dingley shall use solvent recovery systems on any inkjet printers using methanol based ink. [A-506-70-F-A (9/17/04), BACT & MEDEP Chapter 140, BPT]

DONE AND DATED IN AUGUSTA, MAINE THIS DAY OF 2007.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

BY: _____
DAVID P. LITTELL, COMMISSIONER

The term of this amendment shall be concurrent with the term of Air Emission License A-506-70-H-R/A.
